FOG STORM

The new Fog Storm by Global Special Effects utilizes a high air flow fan in conjunction with a traditional fog machine element that creates a variety of unique fog effects that can be used in an array of applications— from thick bursts of fog that move across a room, to thick smoke that simulates an explosion, and everything in between. The Fog Storm is made in the USA and can be utilized with our debris cannon to produce custom effects!

SIZE:

Dimensions: 23"L x 24"W x 23.5"H

Weight: 62 lbs

ELECTRICAL REQUIREMENTS:

Voltage: 110/V

Power: 19 Amps

COVERAGE:

Projection: Up to 60+ ft.

HEAT UP TIME:

Heat Up Time: 5-10 mins

FLUID USAGE:

Consumption: 3 oz. per minute when ran at 100%

Fluid Type: Can be used with Global Special Effects' full range of fog fluid excluding low-lying (Chiller) fog fluid. Quick Dissipating fog fluid will produce a steam or CO2 effect, while a dense fog fluid will produce a thick swirling output of fog that can quickly move across a room.

CONTROL OPTIONS:

- LCD Controller Screen
 - Internal Timer Controls
- DMX 512
- The fan of the Fog Storm runs independently, meaning it can be used as a fog machine, with or without the fan.

LIFETIME
LIMITED WARRANTY

The Fog Storm by Global Special Effects is covered against manufacturing defects by a Limited Lifetime Warranty.
