ES-20 Scent Machine

The ES-20 Scent Machine by Global Special Effects is a compact, liquid-based diffusion system designed to deliver powerful and consistent fragrance in any space. Engineered for versatility and reliability, the ES-20 uses advanced atomization technology to convert liquid fragrance into a fine mist ensuring even scent distribution without heat, residue, and mess. It offers customizable settings including adjustable diffusion intensity and timer controls. Its sleek design and quiet operation make it a seamless addition to any space where fragrance matters. Ideal for offices, hotels, lobbies, spas, retail spas and more.
